Professional Summary

Aspiring Full Stack Developer with hands-on experience in **Python, React.js, SQL, and Django**. Strong foundation in Object-Oriented Programming and Data Structures, with the ability to develop responsive web applications, manage databases, and utilize Git and GitHub for version control.

Technical Skills

Programming: Python, Java

Frontend: HTML5, CSS3, JavaScript, ReactJS

Backend: Django, RESTful APIs, API Integration, Node.js (Basics)

Database: MySQL, SQL

Tools & Technologies: Git, GitHub, Postman

Experience

Full-Stack Development Intern – ReTech Solution Pvt Ltd

- Developed web modules using HTML, CSS, JavaScript, and REST APIs, improving delivery speed by 20%.
- Integrated MySQL with backend services and optimized CRUD operations, reducing query time by 15%.
- Enhanced UI performance and reduced page load time by 25% through component-based design.

Projects

Future Decentralized Digital Commerce with ONDC Using Blockchain & AI

- Built a decentralized commerce platform leveraging Blockchain and AI on ONDC to enhance security and transparency.
- Developed smart contracts for secure transactions, automated payments, and simplified return processing.
- Implemented AI - based fraud detection and vendor recommendation system to enhance scalability and customer experience.

Online Unused Medicine Donation for NGOs

- Developed a web-based medicine donation platform enabling donor registration and NGO coordination.
- Designed a structured database schema to manage medicine listings, requests, and inventory tracking.
- Automated digital workflows to improve accessibility, reduce medicine wastage, and enhance operational efficiency.

Education

Bachelor of Information Technology

IFET College of Engineering

CGPA: 7.26

Higher Secondary

V.R.P Higher School

Percentage: 81%

2021 – 2025

2019 – 2021

Certifications

- Python Programming – GUVI
- Build Responsive Real-World Websites with HTML and CSS – Udemy
- Introduction to Networks, Switching Routing and Wireless Essentials – Cisco CCNA
- Introduction to Backend Development using Node.js and Express.js – DevTown
